

## AbBox Fluor 350-小鼠抗人 IgM

|                     |                                                                                                                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog_no :        | AD9050                                                                                                                                                                                                        |
| Applications :      | Elisa,IF,ICC,FCM                                                                                                                                                                                              |
| Reactivity :        | Human                                                                                                                                                                                                         |
| Category :          | 抗原抗体                                                                                                                                                                                                          |
| Size :              | 100µl/1ml                                                                                                                                                                                                     |
| Protein_name :      | AbBox Fluor 350-Mouse Anti-Human IgM                                                                                                                                                                          |
| Formulation :       | 1 mg/ml, liquid in 0.01M Phosphate Buffered Saline, pH 7.2, containing 1% BSA, 50% glycerol, 0.02% Sodium Azide                                                                                               |
| Source :            | Mouse                                                                                                                                                                                                         |
| Dilution :          | IHC (1/100 - 1/1000), IF (1/100 - 1/1000), FCM (1/1000 - 1/4000), Elisa (Use at an assay dependent concentration)                                                                                             |
| Purification :      | The antibody was isolated from ascitic by immunoaffinity chromatography using antigens coupled to agarose beads.                                                                                              |
| Concentration :     | 1mg/mL                                                                                                                                                                                                        |
| Storage_stability : | Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing |
