

## Cathepsin D Polyclonal Antibody

|                     |                                                                                                                       |
|---------------------|-----------------------------------------------------------------------------------------------------------------------|
| Catalog_no :        | AC0036                                                                                                                |
| Applications :      | WB,ELISA                                                                                                              |
| Reactivity :        | Human                                                                                                                 |
| Category :          | 抗原抗体                                                                                                                  |
| Size :              | 100µg/50µg/20µg                                                                                                       |
| Gene_name :         | CTSD                                                                                                                  |
| Protein_name :      | Cathepsin D                                                                                                           |
| Humangene_id :      | <a href="#">1509</a>                                                                                                  |
| Humanswissprot_no : | <a href="#">P07339</a>                                                                                                |
| Immunogen :         | Synthesized peptide derived from Cathepsin D . at AA range: 90-170                                                    |
| Specificity :       | Cathepsin D Polyclonal Antibody detects endogenous levels of Cathepsin D protein.                                     |
| Formulation :       | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Source :            | Rabbit                                                                                                                |
| Dilution :          | Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.                                   |
| Purification :      | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Concentration :     | 1 mg/ml                                                                                                               |
| Storage_stability : | -20°C/1 year                                                                                                          |
| Msds :              | <a href="#">MSDS_Antibody.pdf</a>                                                                                     |
| Other_name :        | CTSD; CPSD; Cathepsin D                                                                                               |
| Molecular Weight :  | 44KD                                                                                                                  |
